DETAILED ACTION

Response to Amendment

1. The affidavit filed on September 11, 2006 under 37 CFR 1.131 is sufficient to overcome the Wang reference (US Patent No. 6,820,825).

Election/Restrictions - EXAMINER'S AMENDMENT

2. Claims 1, 11, 24, 35, 42, 61 and 72 are allowable. The restriction requirement between species Groups A-C, as set forth under paragraph 6 in the Office action mailed on January 10, 2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim. Claims 10, 18, 21, 22, 28, 40, 67, 69, 70 and 76, directed to the subject matter of non-elected species Groups B and C, are no longer withdrawn from consideration because the claims require all the limitations of an allowable claim. However, claims 31-34, 51-60 and 79-86, directed to inventions Group II or III, and/or species Group B or C, remain withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of

3. This application is in condition for allowance except for the presence of claims 31-34,

• Accordingly, claims 31-34, 51-60 and 79-86 have been cancelled.
